The Driving Force That Keeps You Running!

Beta Max has elevated the industry for over a quarter century. Our company was built on a foundation of providing superior quality products with exceptional service and technical support. We build great partnerships and create even better solutions so that our customers can focus on being safe and successful.

You know your business better than anyone, and you know more than anyone streamlined production is critical for maximum revenue generation.

Welcome to the New Generation! Beta Max!

All Beta Max Hoists are backed by superior service and a proven track record. Beta Max delivers comprehensive lifting solutions for every construction and industrial need.

Choose from a full line of lifting solutions from lightweight high speed portable hoists, heavy duty rack and pinion elevators, and masterfully engineered Maxials.

Whether you are looking for a portable lifting solution or a permanent elevator, Beta Max will get your work done without worry, without wait, and without delay.

MATERIAL

Moving materials on a jobsite is challenging. The payload is heavy, work space is confined, and physical delivery of materials risks injury and causes a slow down in productivity due to worker exhaustion.

A Beta Max Hoist is designed with ease of loading and unloading thereby streamlining material delivery. The small footprint gets materials to even the most confined work level efficiently while reducing labor cost and increasing safety.

Each system is composed of a base unit, payload basket, 5' mast sections, wall or scaffold anchors and emergency over speed brake.

- Available in capacities of 1000 lbs, 2000 lbs, and 3300 lbs

RACK AND PINION HOISTS

PERSONNEL

Beta Max personnel hoists offer strong performance, durability and lifting capacity for all of your needs.

Safe and reliable, the completely enclosed passenger car with interlocking doors, exceed safety regulations. The self erecting feature with fold out work platform coupled with a dedicated one piece base system comes to the job site pre-assembled and dramatically reduces installation time.

Optional Variable Frequency Drive allows operation on single phase power and allows soft start and stop.

- Available in capacities of 2000 and 6000 lbs

ELEVATOR

Our durable, heavy duty rack and pinion hoists gets what you need where you need it, even in the smallest of spaces.

Get your crew, get your gear, and get your work done without delay! Beta Max Rack and Pinion hoists are permanently installed, professionally programmed, and custom built for your site. Choose your cab size, your access doors, and your accessories. Rugged and innovative programming controls allow you to predetermine and adjust landings and much more.

Get what you need, where you need it even in the smallest of spaces!

- Available in capacities of 2000 to 6000 lbs
