

## MAX CLIMBER 2000 RACK & PINION LIFTING SYSTEM

For more than 20 years, *Beta Max* has provided safe, reliable material and passenger lifting solutions to the construction, maintenance, and restoration industries.

### Product & Safety Features:

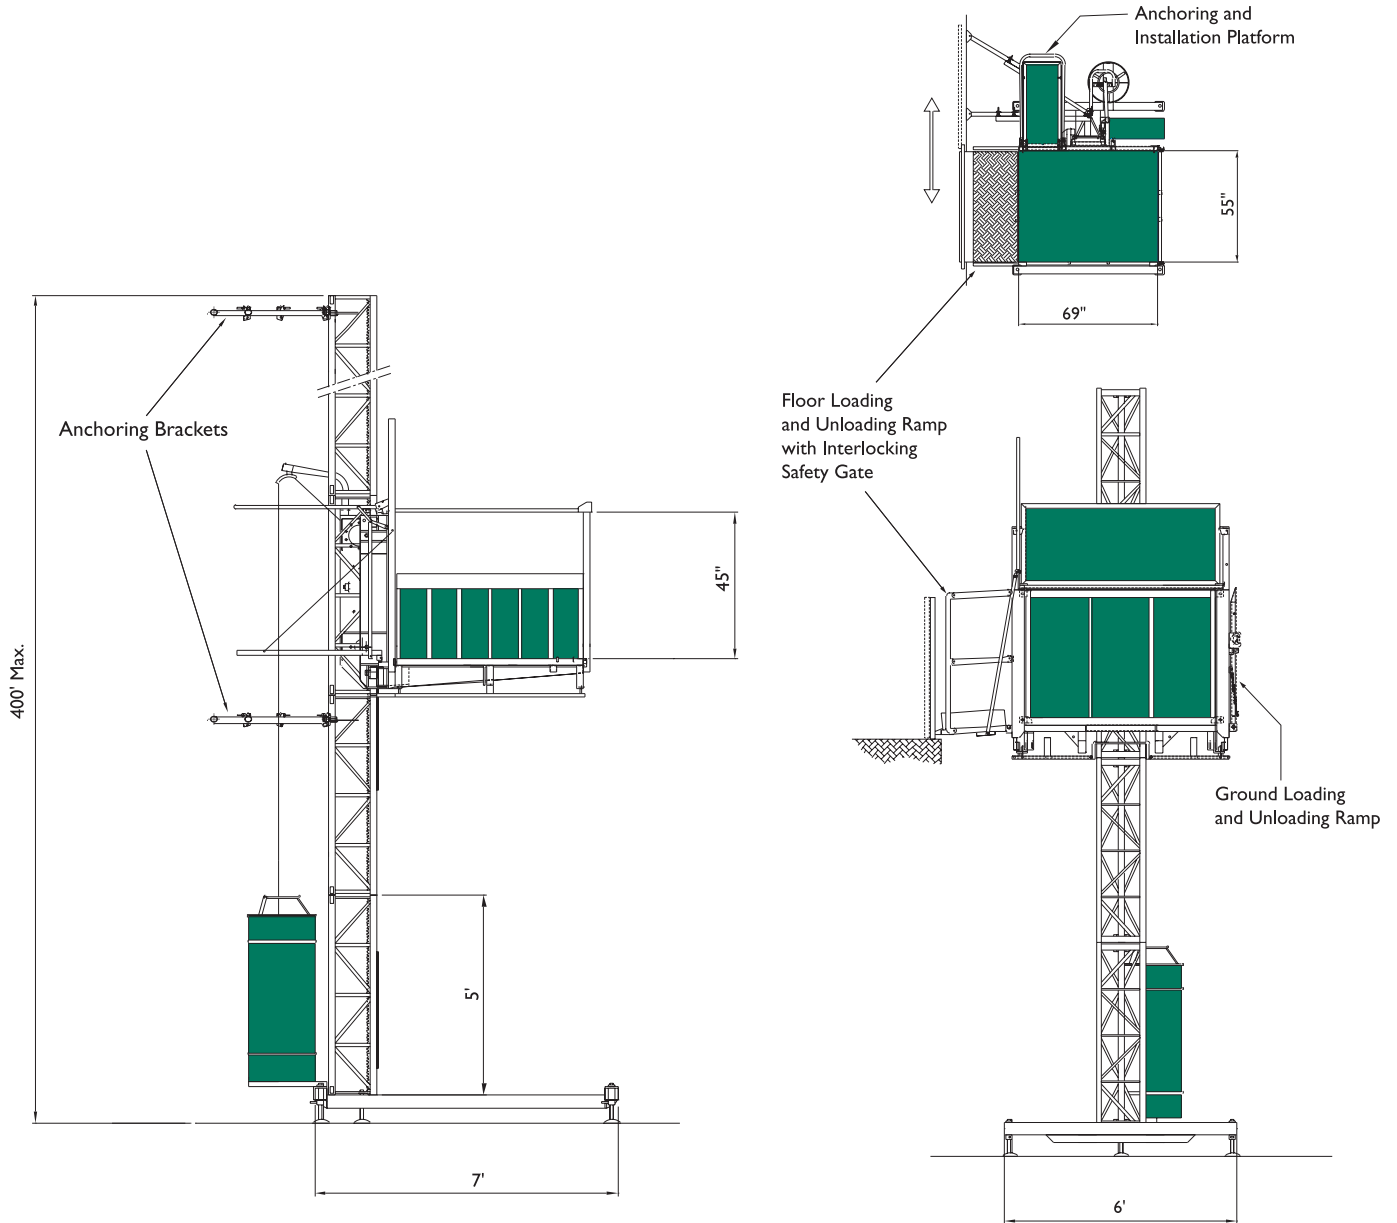

- Each 5 ft. galvanized mast section weighs just 95 lbs. and is easily installed with four bolts
- Emergency upper and lower limit devices and separate emergency overspeed brake
- Floor stops allow system to stop at pre-set levels
- Ground personnel safety alert—material hoist automatically stops 10 ft. above ground
- Material hoist can be field upgraded for personnel
- Installation platform for installing and anchoring mast
- Mounting clamps available for attaching to scaffolding or anchoring to building
- Removable controller for easier service
- Standard basket size 65 in. x 52 in. and customized basket sizes are available.
- Screw jacks for easy and fast leveling of base unit
- Optional roof enclosure available
- Optional VFD controller available which allows system to operate on 230 V/single phase and provides soft start/stop
