Beta Max Max Climber 2000

▶ The Max Climber™ 2000 from Beta Max, Palm Bay, Fla., is a rack and pinion material hoist designed to provide an easier and safer method for transporting building materials. The Max Climber 2000 features heavy-duty, galvanized mast sections and is equipped with emergency upper and lower limit devices, an emergency overspeed brake to guard against free-falling and a ground personnel safety alert that automatically stops the hoist 10 ft. above the ground. A 7-ft.-by-6-ft. base system footprint helps distribute the weight of the equipment, while standard basket size is 57 in. by 52 in.
